

## PTP70II - P&T head camera Ø 79 mm – 300 mm

The pan & tilt head camera PTP70II disposes of endless rotation and a panning range of  $-20^{\circ}$  –  $+110^{\circ}$ . The pan & tilt camera PTP70II is connected to a crawler with the crawler adapter RCC70 or to the AGILIOS™ - push camera system by means of the spring connection SP70.

### TECHNICAL DATA - PTP70II

|                           |   |
|---------------------------|---|
| Nominal pipe widths       | DN 90 – DN 300  |
| Pipe bend mobility        | as of DN 100 / $90^{\circ}$   |
| Push operation            | yes   |
| Crawler operation         | yes (with RCC70)  |
| Pressure tightness        | up to max. 1 bar  |
| Panning range             | $-20^{\circ}$ – $+110^{\circ}$  |
| Rotation range            | endless   |
| Illumination              | LED-Illumination  |
| View angle                | $60^{\circ}$ horizontal (image always upright)                          |
| Focus                     | 5 mm - $\infty$ (manually)  |
| Resolution horizontal     | 420 TVL / PAL   |
| Iris control              | fixed   |
| Sensitivity to light      | 0.025 Lux   |
| Upright picture           | yes (in axial view)   |
| Location transmission     | 512 Hz / 640 Hz (to be activated at choice, switch between frequencies) |
| Laser pointer             | yes   |
| Distance laser            | 25 mm   |
| Internal pressure sensor  | yes   |
| Angle sensor for panning  | yes   |
| Angle sensor for rotation | yes   |
| Protection class          | IP68 up to 10 m water depth   |
| Ambient temperature range | $0^{\circ}\text{C}$ – $40^{\circ}\text{C}$                              |
| Storage temperature range | $-20^{\circ}\text{C}$ – $70^{\circ}\text{C}$                            |
| Material                  | aluminum  |
| Dimensions (ø x L)        | 72 x 112 mm (without SP70/RCC70)  |
| Weight                    | 1.0 kg (without SP70/RCC70)   |

- CMOS color camera
- Rotation and pan unit integrated in the camera head
- Endless rotation range
- Powerful homogeneous illumination through LED lighting
- Light control from 0 – 100%
- Impact-resistant lighting ring with integrated, inter-changeable bumper
- Upright picture (in axial view)
- Integrated laser to determine diameters and crack widths
- Location transmitter can be activated
- High sensitivity to light
- High resolution
- Indication of the panning and rotation angle on the GUI of the VC200/ DCX5000 and in the text generator (VC200)
- Internal pressure indication via system status VC200 / DCX5000
- With spring connection SP70 compatible to the AGILIOS™ - push camera system
- With crawler adapter RCC70 compatible to the ROVION®-inspection system
- Interruption-free panning of pipe connections
- Optionally available as EX version
